

**CTFRP9015
Non-Standby
Power Supply
Output 60/75/87V 15A**

Provides cost-effective 60/75/87V 15 Amp powering for the cable network. Complete with outdoor enclosure, ready for pole or wall mounting. Ideal for use where standby power is not required.

FEATURES

- Complete cost-effective cable power supply
- Outdoor enclosure, ready for pole or wall mounting
- 120VAC 60Hz input
- User selectable 60/75/87 VAC output @ 15 Amps
- Security lock
- Includes pole/wall mount bracket
- LED output indicator
- Lightweight corrosion resistant aluminum enclosure
- UV protected powder-coat finish

Standard Models*

Myers Model #	Description
CTFRP9015	Non-Standby Cable Power Supply, 120VAC 60Hz 60/75/87V 15 Amp

*Note: Other voltages, current ratings available upon request.

Basic Characteristics**

Myers Model #	Dimensions – HxWxD Inches (cm)	Weight – Lbs (kg)	Material
CTFRP9015	11.5 x 9.25 x 8.25 (29.2 x 23.5 x 21)	61 (27.7)	Aluminum

Electrical Characteristics**

Specification	
Input Voltage:	120 VAC +/- 15%
Input Frequency:	60 +/- 1Hz
Output Voltage:	60VAC, 75VAC or 87VAC Field Selectable, +/- 3%
Output Current:	15 Amps maximum sustained (1350VA)
Efficiency:	87 – 90% dependent on load

**Note: Specifications subject to change.
